Subject and speaker	Summary of discussion	Reply of Govt.
Subject No. 255 **Improvement of Solur anikat. Mr. Devappa of Shikarpur Taluk.**	The surplus water of the Solur anikat goes to waste by finding its way into the Kumudvati river while the want of water is greatly felt during the summer. Either the anikat may be raised by 2 or 3 feet or arrangements made at the end of November to store 3 feet of water near the anikat and Ramanavaddu.	Referred to the Public Works Department.
Subject No. 256 **Repairs to roads Mr. Sivappa Dikshita, Mr. Ranganna and Mr. Ramachandra Rao of Shikarpur Taluk.**	No action seems to have been taken on the representation made last year *in re* the repairs of roads. The following require early attention— 1. Siralkoppa-Sorab road. 2. Siralkoppa-Sagar road.	These two roads are now being repaired.
Subject No. 257 **Anikat across Dandavati river. Mr. Nadig Sivappa, of Sorab Taluk.**	The Executive Engineer has not, as yet, seen the site of the proposed anikat across the Dandavati river and made a report thereon as directed in Subject No. 194 of 1896.	A spot has been selected by the Executive Engineer and surveys will be taken in hand as soon as possible.
Subject No. 258 **A dam across Nagarhalla. Mr. Nadig Sivappa of Sorab Taluk.**	By constructing a dam across Nagarahalla, the Bombay Government have diverted the water which, from time immemorial, used to flow into the Mysore Territory. The question was discussed on two previous occasions. *Vide* Subject No. 164 of 1894 and Subject No. 200 of 1896. Early orders are solicited on the subject.	This will be looked into.
Subject No. 259 **Construction of irrigation works. Mr. Harakere Ramanna of Nagar Sabha, Mr. Sivappa Dikshita, Mr. Ranganna and Mr. Ramachandra Rao of Shikarpur Taluk.**	The Deputy Commissioner and the Executive Engineer may be ordered to take early steps for the construction of such important irrigation works as Tirugani Madu, &c., in the Shikarpur Taluk.	Such projects as are considered feasible are being investigated.
